Issue Number: 4.0
Date: 12/09/25
Classification: Company

Audiebant Outdoor is a world-first, solar-powered mass communication system engineered for the demands of public spaces and live environments. From stadiums to city centres, festivals to transport hubs, it delivers high-impact audio messaging, crowd guidance and safety information, wherever it's needed, without fixed infrastructure.

This all-in-one, portable solution combines powerful speakers, solar charging, wireless, 4G/5G or satellite connectivity and cloud control for unrivalled performance and reliability in the field. Whether for planned events or emergency response, **Audiebant Outdoor** empowers organisers and safety teams to take control and stay connected.

Key Features

Portable & Solar-Powered

Fully mobile with battery backup and optional integrated solar panels

High-Impact Audio

Directional, crystal-clear messaging to large outdoor crowds

Wi-Fi, 4G/5G or Satellite

Wireless cloud integration for remote control and real-time updates

Dynamic Event Support

Adaptable for welcome messages, crowd flow instructions or incident

Live or Scheduled Announcements

Broadcast dynamic text-to-speech or pre-recorded content at the right time

Multilingual AI Messaging

Communicate clearly across language barriers using real-time translation

Revenue Generation

Integrated messaging zones can be used for sponsorship or merchandise promotion

Zoned Deployment

Units can be assigned roles (e.g. Welcome, Directions, Exit) for tailored messaging

Fully Integrated

Works seamlessly with **Audiebant Control** and **Audiesafe**

How It Works

Audiebant Outdoor units are positioned strategically across your event or venue footprint, whether that's a single site or multiple locations throughout a city. Each unit connects to the **Audiebant Control** platform via 4G/5G, enabling remote broadcast of targeted messages.

From safety instructions to promotional content, teams can control messaging in real-time or pre-load content to specific time slots or zones.

- Units are deployed and activated on-site
- Messages are sent via the cloud using Audiebant Control
- Each unit delivers zone-specific audio announcements
- Teams monitor, adjust and update content in real time
- System continues to operate via battery backup if power or signal is lost

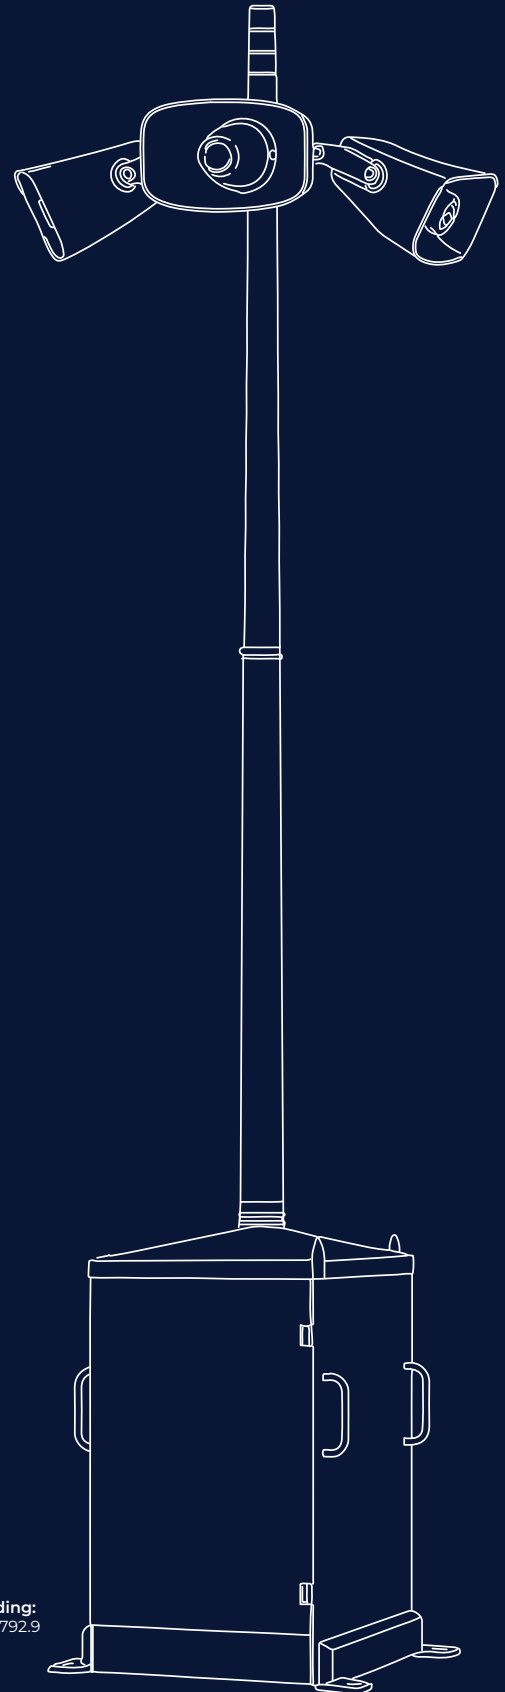

Why Audiebant?

At **Audiebant**, we believe communication should be seamless, intelligent and reliable. As a global technology company, we specialise in unifying audio, visual and mobile alerts into one powerful system ensuring people stay safe, informed and connected.

Our scalable, user-friendly solutions are trusted by organisations across education, healthcare, government, transport, events and commercial sectors, delivering the right message, in the right place, at the right time.
